Open Field

Our open field solutions help protect and improve yield and crop quality

Customized Agricultural Solutions

Single and ultrasonically welded covers, up to 16 m wide, available with a range of thickness and colors
Hydrophilic and Hydrophobic grades in the amount needed and UV Resistance application

Improved Yield And Crop Quality

Effective and reliable physical protection against pests and harsh climatic conditions
Allows the soil temperature to be balanced and kept under control

Easy Installation

Laid directly on the product in open field, ultrasonically welded and reinforced edges help ensure rapid coverage and unwinding. Easy to lay and collect

Transport And Storage

Folded in 1.6 m, 2.4 mt or 3.2 mt rolls, can be supplied in pallets

Greenhouses

Protect and grow your crops the easy way

Improved Yield And Crop Quality

Stable micro climate and effective protection against pests
Helps to reduce need for irrigation and preserves heat in soil

High Permeability

Controlled light and water transmission

Easy Installation

Easy to manual covering greenhouses

Durability

Re-Usable protection with a robust structure

Mulch

www.cordeks.com

Protect against weed control and improve soil temperatures

Improved Yield And Crop Quality

| Creates a warmer, more robust soil environment

High Water And Air Permeability

| Maintains the quality of soil and avoids surface water pooling

Weed Reduction

| Blocks light to inhibit weed growth and keep the plant neat and clean

Durability

| Can remain on fields for up to three seasons

Mulch

Tunnels

Helps your crops grow effectively

Improved Yield And Crop Quality

| Creates controlled climate preventing UV rays and frost
| Moisture absorption in the amount needed
| Helps to manage pest problems, reduce crop losses

Easy Installation

| Ultrasonically welded covers for ease of use

High Permeability

| Reduced pooling, avoiding tunnel deformation
| Helps to save on irrigational expenses

Durability

| Re-Usable protection with a robust structure

Tunnels

Garden Nursery

Additional protection for young plants

Improved Plant Growth

| Provides protection from harsh climatic conditions
| Improves plant growth and increase plant survival
| Exceptional thermal protection

Eco Friendly

| Non Toxic and Re-Usable

High Permeability

| Controlled light and water transmission, retains moisture for a longer time
| Provide excellent breathability for the plant roots
